

# OZONE RACE CONTROL SYSTEM

THE ULTIMATE KITE RACING  
ACCESSORY, CUSTOM  
DESIGNED IN COLLABORATION  
WITH OUR ELITE RACE TEAM  
INCLUDING THE WORLDS TOP  
KITE RACERS

Utilising top of the line components and materials the Race Control System is smooth and reliable on the course. Incorporating a double pulley system offers minute trimming on the go, allowing the racer to hike out maintaining maximum power against the fins.

Added benefits on the Race Control System include our proven Flag Out Safety System with the Megatron Quick Release Chicken loop, offering simple flag out release of the kite. The release exceeds all Kitesurf loading and release EU NORM safety standards.

Further turbo charge your set-up with our Race Flying Lines and Race Bridle Sets (Edge only).

The Race Control System bar sizes come in 45cm, 50cm and 55cm. The larger size PU chicken loop (sold separately) is perfect for riders with longer arms.
